On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB4124

I wholeheartedly support HB 4124. Oregon needs to support our important historic landmarks under all circumstances. We have not done an adequate job of preserving our landmarks and must do better. While progress is important, it can't be at the cost of neglecting and demolishing our history. The lodge at the Oregon Caves is a perfect example of this. The lodge is historic, beautiful and, with improvement, can be a significant draw for tourists to the south western part of the state. Please, let's preserve what we already have which is great. Once it's gone, there's no getting it back.
