

Submitter: David Wilson

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB4083

my support of the COAL Act flows from two distinct but interrelated factors. First, the obvious environmental benefits that I consider our moral obligation to those who follow, including our two year old granddaughter, Mira. Second, the growing trend toward alternative energy sources, which make fossil fuels a poor fiscal investment. Thank you for taking my strongly held commitment to an improved world for Mira into consideration,
