Committee: Senate Committee On Education
Measure: SB1583

The value of democracy - the value of the diversity of opinions - is that the best ideas come forth when we learn from all perspectives. Disagreement makes us stronger. Young people in Oregon deserve to learn and grow in an environment where they can learn from all of their peers and neighbors and community members. This bill ensures access to educational materials represent diverse voices, which in turn ensures the safety and belonging of every child in their classrooms and learning environments. I support this Bill. Thank you.
