Government, and Veterans

Measure: HB4044

To: Committee on Emergency Management, General Government and Veterans
Re: HB 4044

Thank you for the opportunity to comment in support of HB 4044, Toxic Inhalation Plume Study Bill. 90% of all of Oregon's petroleum based fuels are stored along the Willamette River in an area susceptible to liquification in the event of an earthquake. This study can give us accurate data to help us plan for ways to protect the health and safety of our community if we experience a large earthquake. I urge you to support this bill.

Respectfully,

Cathy Spofford
