Water

Measure: HB4090

Thank you all for your consideration.

It seems that HB4090 could be a way to circumvent our very important ORS 469.595. We will always need this ORS to protect us from any Nuclear waste which we know lasts up to 10,000 years. I don't believe any of us know what Oregon will look like at the end of that time interval. Please oppose this bill.
