Measure: HB4090

I support the amendment HB 4090-1 by Rep. Fahey, "On page 3 of the printed bill, line 33, after "that" insert a colon and begin a new paragraph and insert "(I)". In line 34, after the semicolon insert and (II) Is not a nuclear power plant;".

I am very concerned about small nuclear power plants. They would put another burden, that of disposing of nuclear waste, on future generations. There are also unsolved safety issues, considering how long the nuclear waste lasts. I think Oregon should retain its power over such a project if it were proposed.

Thank you,
Nancy Ahnert
