

Submitter: Sophia Lucas

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Any sexual materials do not belong in schools. The "educational system" has no business talking to someone else's children about sex and sexual subjects. Any adult besides the parent or care giver talking to a child about sexual concepts is a groomer, pedophile, sexual predator. Distribution of pornography to a minor is a felony. Any adult employed by a public school should be charged and be given prison time for exposing children to sexual content in schools.
