

Submitter: CHRISTY HOOPER  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB1503

I believe this bill will do nothing to prevent suicide, violent crime, or keep criminals from illegally obtaining firearms. I believe it is the intent of this measure to use only facts and figures that support their argument and my not reflect ACTUAL facts and figures. I think if suicide prevention needs to be addressed, it needs to start at the root cause and not the means used to sometimes carry out the act. If the state actually cared about its constituents, the state would work more to address the root causes of suicidal ideation instead of pushing gun control on law abiding 2A citizens. I urge you to use common sense and defeat SB1503.
