

Submitter: David Wall
On Behalf Of: Mr Oregon SUPPORTS SB 1596
Committee: Senate Committee On Energy and Environment
Measure: SB1596

I SUPPORT [SB 1596].

A certain Farm Equipment company whose tractors are painted green with yellow wheels has cause much distress with those who have purchased Farm Equipment that only the dealership can repair.

Farmers have been repairing their equipment for generations until a few years ago when Farm Equipment Dealerships discovered a way to make equipment repairs because Farmers did not have access to the tools to repair their broken equipment.

I have heard some Farmer's inventing 'new' curse words to explain their feelings on the current state of repair headaches and the costs pertaining thereto.

God Job, Authors of [SB 1596].

David S. Wall
Mr. Oregon Concurr.
