On Behalf Of: Mr Oregon OPPOSES SB 1581
Committee: Senate Committee On Energy and Environment
Measure: SB1581

I OPPOSE [SB 1581].

The "Regional Energy Market" may impose draconian reliance issues on the energy produced by the "investor-owned utility."

There is the ever present issue of "Price-fixing or Price controls" to control 'Equity issues' which have absolutely 'no place for consideration.'

An "investor-owned utility" is to make a profit for its' investment and not to be controlled and or influence by the dictates of a "Regional Energy Market."

The "investor owned utility" may also be required to augment 'power-outages' to the expense of share-holders and their customers.
