On Behalf Of: Mr Oregon says put Elks on the BBQ

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure: HB4061

I SUPPORT [HB 4061].

It is a crying shame that the legislature hasn't realized, Elks are not on any endangered species list.

The taking of Elks for food is just a money maker for the Department of Fish and Wildlife.

Why not allow hunters who purchase one(1) Elk tag to harvest six(6) Elks over the entire year save mating season?

The compensation given to farmers is not enough money to pay for their time filling out forms and wondering if some brain-dead bureaucrat will deny the claim.

The above goes for Deer too.
