

Submitter: April Henry

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I strongly support having non-discriminatory materials at schools. Every year, I travel to states all over the US to speak to thousands of students about reading and writing. As I travel, I see states where books featuring gay characters are banned, or books that discuss race or ethnicity. As a native Oregonian, I would hate to see this kind of bigotry take root here.
