

Submitter: Clint Freeman
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB1503

Suicide isn't a joke, With that being said what's the difference with a gun? Will cars, knives, pills, rope, drug overdoses be affected also? There are more ways then just a gun to end your life. Oregon has legalized assisted suicide, and with hard drugs so easy to get what stops them from overdosing to die? There will always be a way for someone motivated wanting to kill themselves. With crime and drugs on a steady rise due to our law makes doing such a terrible job this is a attack on our 2nd amendment rights... again! Maybe law makers should work harder to put money back in hard working legal tax paying Oregonians pockets then how hard they work to take it? Lesson the burden and cost to live in this state vs driving someone to the point they see no light at the end of the tunnel and they begin to question suicide? I'm a third generation Oregonian who has a son who is a forth generation Oregonian but the way this state is attacking its residents they is a good chance there will not be a fifth generation here. I love this state but law makers are driving it into the ground and the people out. Due to bad laws and the blatant disregard for the people who live here, I'm sure the person reading will most likely disagree with what I'm saying. If you are perfectly fine with walking the streets of PDX at night with no personal protection and believe the police force will be there to protect you at the drop of the hat and you believe that maybe you should ask a doctor if suicide is right for you?
