

Submitter: Janet Sarver

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

It's really terrible that this type of bill is necessary but I completely support it. Books and libraries are important in every community. If someone is worried about books their children might read, they need to spend the time to talk to them and take them to the library and find some appropriate things to read. Talk to a librarian-they are there to help you. Banning books is a terrible thing to do.
