

Submitter: David Wall
On Behalf Of: Mr Oregon OPPOSES HB 4080
Committee: House Committee On Business and Labor
Measure: HB4080

I OPPOSE [HB 4080] WITH EXTREME PREJUDICE!

When will those espousing Wind Turbine Farms give-up?

Energy generated from Wind Turbine Farms is expensive, unreliable and will cause damages to;

*The environment (bird killers, oil spills, unknown marine life issues),

*The local economy (loss of revenue from; fishing, Tourism-who wants to travel to the Oregon Coast and pay hard earned money for hotels and restaurants to look at Wind turbines?),

*And climate issues (energy is unreliable therefore the use of coal burning power plants will still be needed-ask the people who live in the UK how Wind Farms in the North Sea worked for them).

There are additional problems with Wind turbine Farms. Note how much energy to Oregon is realized from Wind Turbines compared to natural gas fired cogeneration plants

For additional reading check out:

House Comm. on Agriculture [HB 4132] House Comm. Climate, Energy & Environment [HB 4015].

Abandon hope all Ye of saving the planet by supporting Wind Turbine Farms-save your reputations and your jobs, if not for your own benefit but for your family's sake! (Don't forget the Birds and other Marine life!)

David S. Wall

Mr. Oregon Concurr, "You want Wind Turbine Farms? I have some Ocean front property in Yamhill County I'll sell you real cheap. You can also site your battery storage facility here as well. Honest. Protect the Climate before it's to late."
