

Submitter: Leanna Rios

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I support this senate bill being passed because, as a student, it is important to be able to access any and all resources available to me. I highly encourage you to vote yes, to keep students everywhere in a healthy learning environment. School is supposed to be a safe and educational place where a free flow of information is encouraged. Having these lists of "banned books" is the opposite, and encourages fear and confusion in America's youth.
Thank you for your consideration.
