Measure: SB1577

I vehemently OPPOSE SB1577. Oregon's recent data exposures of 2023 (DMV. OHA) and prior have not been properly remediated and disclosed full social security numbers. I see this opening a door to more non-residents getting registered to vote. We already have non-citizens being registered via medical provider appointments, which is also wrong. PLEASE do not compound the problem! We need to have control of who is registered to vote and these measures could contribute to people being registered to vote in more than one city/county, and we know that many who have multiple voter registrations will vote in multiple locations.
