Committee: Senate Committee On Education  
Measure: SB1583

As a longtime librarian, a resident of Oregon, and a mother, I urge you to pass this measure. Professional teachers and library staff need protections to be able to do their jobs to the best of their ability, to support literacy and access to information for all ages, on all topics of interest. No single person should be able to restrict access to books and information for the entire community. That's a violation of the American Library Association's position on intellectual freedom, and should offend free-thinking people everywhere.
