

Chair Prozanski and Members of the Committee:

I am writing today in support of SB 1503, the Task Force bill on gun violence prevention and firearm suicide prevention.

I am a concerned citizen who lives in rural Oregon.

Gun violence and suicide prevention is the only way to lower the amount of firearm deaths. It's a no brainer. By preventing these senseless deaths, we are also preventing generational trauma from gun violence and suicides.

Every year, we lose close to 600 Oregonians to preventable firearm deaths. Black Oregonians are roughly 10 times more likely than white people to die by firearm homicide. And the firearm suicide rate in rural Oregon is 2.5 times higher than in urban areas and the state's veteran suicide rate is 37% higher than the national average.

I strongly support the SB1503, Task Force bill, and urge the Task Force to prioritize prevention efforts that are centered around those most impacted by gun deaths and shootings, as well as firearm suicides. I urge the Task Force to analyze and prioritize ongoing, sustainable funding for efforts for prevention work that is making the most meaningful, equitable impact, both for homicide and suicide prevention.

Thank you for the opportunity to submit my testimony on this issue.

Sincerely,
Cindy Allen, Hood River
