

Submitter: Karen Matthews  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB1576

Dear Legislators;

Please pass SB 1576 to keep recreational immunity in place for Oregon trails and lands that provide access to recreation.

One of the things I value in living in Oregon is the access to a wide variety of outdoor recreation opportunities. As an outdoor enthusiast I recognize the inherent risks associated with outdoor recreation. Basic logic tells you that there are risks but the rewards outweigh those risks. I am willing to take these risks and it is wreaking havoc all along the Oregon coast as trails have been shut down because one person refused to take personal accountability for their unfortunate accident.

Lets do the right thing and reinstate recreational immunity.

Sincerely,

K. Matthews
