

Submitter: Cheryl Hoskins  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB1583

I oppose SB1583. It's a shame that local school boards are intent on corrupting our young American citizens with an agenda that goes against their values and common sense.

More families will move out of state seeking better education and leaving less revenue for Oregon. I've lived in Oregon most of my life. If the public schools would just stick to reading, writing & arithmetic and graduating students with a diploma we would all be better off. Students need to think for themselves. Stop being communistic! It doesn't work. Read this true book about a North Korean defector called "While Time Remains" by Yeonmi Park and your eyes will be open.
