

Submitter: David Jameson

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB1576

Oregon is well known for its wide variety of outdoor sports and activities. Much of those activities take place on land that is currently freely accessible to the public. Owners of these properties had made their land accessible because of the liability protections that the Oregon legislature had wisely passed. Recently those protections have been chipped away.

If those protections aren't reinforced by this legislation, many activities that we all take for granted, sadly might well disappear.

Please act to help keep Oregon's outdoor activities available to all!
