

Submitter: David Schroeder

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: SB1590

I'm writing to oppose changes to the current rule. I spend a lot of time along the Willamette in the area and I worry that the area is already louder and more polluted than it should be. We need to consider better ways to manage and protect a scarce resource and to limit climate change. Allowing loud, fast boats would negatively impact the character of the river in the area.

Thank you for your time.
