

Submitter: Brooke Eckelberry
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

Hello Senate Committee on Education,
Without a doubt, my support for this bill stands.
The bill starts with, "prohibits discrimination". Doesn't that seem to be enough.
Limiting the cultural stories and experiences of our human race is a great disservice to those who find their learning and exploration in the stories of others.
As a former educator, i can recall moments when a student found a glimmer of hope after reading about a life experience that was similar to theirs.
Let's create a world of abundant understand and cultural experiences.
