

Submitter: Rebecca Collins

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: SB1590

Our family has been boating in Oregon for the last 6 years. Our kids have grown up on the water and we used to love the Newberg pool for boating. With everyone pushed out of the Willamette river, it has led to extreme congestion on lakes including Hagg and Detroit. There have been days since this change that we left the lake because it was too congested. Boats riding way too close to our kids behind our boat because they have nowhere else to go. Allowing boats back in the Newberg pool (in a safe way), creates more places for boating families to go to keep our kids safe in the water. Thank you for your consideration!
