

Submitter: Andiah Johnson
On Behalf Of: Students at Newport High School
Committee: Senate Committee On Education
Measure: SB1583

We support Senate Bill 1583. As high school students, we feel that allowing us the freedom to self select books from our libraries is a fundamental right. Having a book banning list is the highest form of censorship based on biases of the people creating these lists. Not something we want to support. Please vote YES on Senate Bill 1583
