

Submitter: Cynthia Kimball  
On Behalf Of: myself  
Committee: Senate Committee On Judiciary  
Measure: SB1576

Dear Chair Prozanski, Vice Chair Thatcher, and members of the committee,

Please pass SB 1576-3 with language that clearly states immunity for public and private landowners and keep nature accessible to all. I hike or walk every weekend in this beautiful state, rain or shine. Thanks to our forward thinking leaders, I am able to access beaches and other natural areas by crossing over private lands. I treat these private lands with the respect they deserve by picking up trash whenever I see it. Access to nature provides me both mental and physical health benefits. Please keep nature accessible by providing immunity to private landowners.

Thank you for your service to our beautiful state.

Sincerely,  
Cynthia Kimball
