Measure: SB1576

To the members of the Senate Committee on the Judiciary

I'm emailing in strong support of SB 1576. We need to make sure that our access to Oregon beaches is preserved, and property owners that are civic minded and kind enough to allow the public to use their property not be punished for doing the right thing. Since the days of Governor Oswald West, we've prided ourselves on our groundbreaking efforts to make all our beaches open to the public. We need to maintain this wonderful tradition, so it's critical to protect property owners from being sued.

Thank you
