

Submitter: Madeline Seymour

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Please do not pass this measure. I am 74, if my property taxes increase I will be forced to decide whether to buy groceries or medications or sell my home and try to find housing I can afford, which we all know doesn't exist. This measure will also lower my property value. The burden this measure will impose on seniors will be astronomical. It's time for all the law makers of this State to work within the budget and be fiscally responsible to the voters.

Respectfully submitted,  
Madeline Seymour
