Measure: SB1530

I fully support the inclusion of furniture bank services as an integral part of Senate Bill 1530, for the following reasons: there is a tremendous need in all communities across the state of Oregon for housing support for our citizens, including all furnishings and supplies that are needed to set up safe and stable households. I believe safe and stable households are absolutely critical for our society to function and thrive -- and for all citizens to have the opportunity to live productively, to work, and to raise families if they should choose to do so.
