

Submitter: Emily Polanshek

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB4083

I support HB 4083, Clean Oregon Assets Legislation. My sincere thanks to all sponsors and others who have developed and championed it.

As a retired teacher who depends on a PERS pension, I log lots of volunteer hours in support of Oregon policies that will protect clean water, air, soil, species diversity and forests for everyone in our state. Policies that protect these will also help slow, stop and eventually reverse the carbon emissions we send into our atmosphere that drive the rapid pace of the climate crisis.

I also care about transparency, accountability and opportunities for public comment.

Please support HB 4083. Thank you.

Thank you.
