

Submitter: Clinton OBrien

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB4124

Dear Oregon legislature,

This bill is of the utmost importance! Arts organizations in Oregon generate a profound positive impact on their respective communities. Not to mention enriching lives of all who are involved, including the audiences. Unfortunately, this currently does not have an economic rubric, but it is clear that the quality of peoples lives have a direct impact on economy. It is also very clear that the Arts have a direct impact on peoples quality of life.
