

Submitter: Brad McGinnis

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

To all members of Oregon's legislature:

This tax bill is a VERY BAD IDEA!!! Many elderly and lower income citizens, in Rural areas will not be able to afford taxes based on Portlands tax rate. We live outside of Portland because our income doesn't give us the means to live within Portland area , due to the higher cost of living including taxes. This will create more homeless Oregonians and we all know that homeless is a HUGE problem within Oregon. I am urging you to strike this bill down. This law will be EXTREMELY detrimental to all Oregonians and this law would only show that you only care about those that live in Portland. Many (including myself) will be forced to move out of Oregon if this law goes through.

Thank you

Brad McGinnis
