Committee: House Committee On Rules  
Measure: HJR201

It is my belief that the State of Oregon waste millions each year on failed projects, lack of proper training and oversight of various state agencies. To infer that the State of Oregon needs to target the incomes of those who can barely make ends meet now, is just ridiculous. Our state already has folks leaving in droves because of the failed policies of the past 30+ years that has drained more than one family of all they have. Please, I beg you. Do NOT vote for this amendment. Public Safety is just another word for a money grabbing scheme and just like the story that gambling would pay for schools (to offset the lack of timber sales taxes) no amount of funding will ever be enough but yet services will continue to spiral down. If you want to do something about our state budget, do a real audit and you will find where all the wasted money is.

thank you

Victoria Mccurry
