

Submitter: Sharon Waterman

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Oregon's Governor and legislator's supposed goal for this session is to provide more affordable housing. So why would any legislator support this bill to put another tax on home/property owners including those "affordable" homes the State leadership wants built? As for renters, I guarantee they will experience rent increases also if this concept moves forward. If affordable house is important in Oregon, oppose HJR 201.
