Dear Representatives, I am asking you to please not allow this to go through!! We elected you as people we thought would represent us best. We really need you to look out for us this time! I know I cannot take on one more bill! And I know so many people that are just broken with all the taxes and everything else this state asks for. We still haven't caught up from Covid! Please do the right thing here. We already have a load we can hardly bear! Please act the way we entrusted you to when we elected you. Thank you very much.
