

Submitter: MARGARET ANN CROWDER

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I strongly urge the committee to let this bill die in committee. As a parent, my children's welfare is my paramount concern and the quality of their education should be nothing less than exceptional. Education in Oregon continues to veer in a decidedly salacious direction. Parents will continue to remove their children from public schools into private schools if the current direction continues. My message to this committee is: NO on SB 1583!
