Measure: SB1576

Senate Committee On Judiciary

Measure: SB1576

Dear Chair Prozanski, Vice-Chair Thatcher, and members of the committee,
I support the Recreational Immunity Fix Amendment to SB 1576.

We live above Oceanside in, and near, several developments that are home to paths that weave throughout the area. Having the proposed immunity will be a positive incentive for landowners to leave these areas open to hikers. We urge you to support this measure, as it alleviates some of the apprehensions landowners may have in regard to allowing access to their property.

With respect,
William C. Stellmon
