

Submitter: Aaron Starr  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

Let me get this straight - a bunch of crazed liberal lawmakers and local officials lose their minds and declare "Defund the Police" in 2020. Three years later, those same delusional people want to blindly raise taxes on us landowners to then "Fund the Police" after they completely broke any trust the police (and citizens) have in Oregon leadership? We already have the highest taxes, and worst outcomes, of over half the States in our fracturing Union. Anyone can see through this power-grab - this is a move of fealty to a cult - the endgame is to force the individual citizen to sell the land to the State, so everyone becomes a 'renter' of their destiny, fully prostrate before a government speeding directly into tyranny (all governments move to tyranny control without restrains... have you studied history?). The good citizens of the State are fully aware of the globalist agenda - tyrants that care more about ideology than people. My Oregon pioneer settler grandfather is turning over his grave, my other grandfather is starting to wonder why he fought the Japanese in WW2. Shame on you lawmakers for even proposing such a tax when the People can barely make ends meet. I fear for my 5th generation Oregonian daughters' future in this State. Stop the madness.
