

Submitter: John Eaton
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Nope. No more money grabs based on fear mongers tales of woe from a situation they created. Figure it the fuck out with what you have been given in the past. We are taxed enough already. I am opposed to this, the Oregonians who created language in our state constitution to prevent this type of ability are against this. I do not want politicians or any political power in Oregon to ever have this authority. This is authority subject to the consensus of the people at any given time, allowed or removed by the people of Oregon. Never an individual or politician.
