

Submitter: Karen Wurdinger  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

Dear Committee members,

Both my husband David and I are vehemently opposed to HJR 201. We are both retired and between the high cost of fuel & food and add in the huge climb in our property insurance and vehicle insurance and property taxes already being on a very limited income there is no way we can afford any more of this. Do you want us seniors to loose our homes? Do you want more homeless people? If so then sure, pass this bill. You folks in the huge cities over there on the West side of our state need to just stop spending our money like it is water. How about instead of asking us to dig deeper in our retirement, you folks start spending our money a bit wiser and start cutting costs. The same as we all have had to do.

We are a hard NO on this.

David and Karen Wurdinger
