

Submitter: Jared Bynum-Lewis

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Howdy. Testimony opposed to SB1583 often are inaccurate, falsely conflating human rights with pedophilia, or discrimination with religious freedom, etc. Being reasonable exposes such irrationality. The prevalence of such errors among the opposition is in fact good reason to favor support, since the result of support would enable availability of illuminating information.
