

Submitter: Russell Kautz  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

VOTE NO!! Oregonians already pay higher taxes than most states. We have a Constitution for a reason - this would remove Constitutional limits on property tax rates and assessment rates with sneaky exceptions. Those with limited income (seniors, the disables, and low-income families) would not be able afford their homes as property taxes become limitless. Property taxes are not what our Founders had in mind. Owning property is an unalienable right - life, liberty, and property! Governments are instituted among men to protect our unalienable rights, not take them away!
