

Submitter: David Guild
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

To whom this may concern,

This attempt at taxation without representation was a catalyst to change almost 270 years ago. The best predictor of the future is the past. I do not know when or how the citizens of this great state will have had enough and take action. The people we know immortalized in history from this time period showed great courage. The ones that showed no courage are not even a footnote. Where will you stand? Do you love liberty ,small accountable government and free markets? Or do you like large government with little to no accountability creating a dependent class while stifling liberty and free enterprise?

My hope is you study our history and what made us great then vote accordingly.

Thank you
DJ
