Measure: HJR201

Please vote NO on this bill...My husband and I are both retired U.S. Navy and we have lived all over this country and traveled the world. We are seriously considering leaving Oregon, even though my husband grew up here and desired to come back after we retired. This is not the Oregon he grew up in, we have never lived anywhere else where we have felt our voice did not matter.

We are fine with our property taxes as they are, but to add more taxes to those of us who have worked hard all of our lives, and still continue to work so we can enjoy owning our own home, is insane. This bill is very simple and does not even state what the money will be used for, it just MAKES NO SENSE.

Please listen to us and vote NO on this

Respectfully submitted.
