

Submitter: Tereasa Harris
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

The people passed 2 amendments to our Oregon Constitution to limit property taxes. Leave it alone! The Democrats in the legislature are throwing money at wasteful programs, no oversight as to who is using this money as appropriate and expecting the people of Oregon to foot the bill. Between the Biden economy and our own state increasing taxes we, the people, are sucked into poverty. This bill is unfair to the property owners who have worked hard to carve out their piece of the pie, whether it's farmers, ranchers, business owners or just Mom and Pop having a house. The people living in apartments and rental properties in the cities have no idea how much sweat and tears these people put into their properties, so they will just vote these rights away for other people. We can't afford any more taxes coming out of our limited incomes, you will be causing more homelessness, is that your goal? Why?? PLEASE do not introduce this bill, we will canvass to defeat it.
