

Submitter: Charlyn Witcher

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Too many Oregonians are already struggling to survive! The cost of food is off the charts, and normal living expenses for ALL families, most especially those with young children and seniors with very limited incomes are well beyond their ability to pay!!! STOP THE MADNESS! STOP looking for more money to use for special projects in the big cities. When Oregon's citizens are already stressed to the MAX, being saddled with more taxes will severely affect their welfare!!

PLEASE DO NOT PASS THIS MEASURE and further destroy Oregon's livability!!!
