Measure: HJR201

With the prices of rent, food, and child care there is no way I could afford the tax to go up. If landlords have more property tax then they will most likely increase the rent. The rent prices are ridiculous currently and making it difficult for families to afford proper housing, teens to get housing after they age out of homes or move out on their own. It is discouraging to see our state be so greedy that is is wanting to tax more. Help your citizens afford housing, we pay enough.
