

Submitter: C Peterson  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

Again the legislature attempts to wrest assets from citizens across the state in order to solve problems in a few areas of the state. I am deeply opposed to such. Rather than just throwing money at things, please try to understand the root cause of the problems. Decriminalization of drugs has attracted people to the state who are now homeless. There has been a 17% increase in homeless, but otherwise net outward migration. If this vastly unjust tax scheme passes, I daresay more taxpayers will leave the state. Please do not pass such irresponsible legislation.
