Measure: SB1577

I do not agree with this bill. It has not been properly addressed. I feel like this Bil will let a bunch of out-of-state people vote on things that they have no knowledge of or right to be voting on. I feel like it will also give more illegal immigrants the right to vote for things in our state and country that they have no business voting on because their votes are swayed by the far left socialists giving them more rights and more privileges than our hard-working American born American citizen taxpayers have in this country.
